(54) SPORTSWEAR

(57)Abstract:

PROBLEM TO BE SOLVED: To prepare a drastically improved sportswear such as a skiwear.

SOLUTION: On clothes for sport made of a material having stretchability, a line-shaped stretch-suppressing line part 1A and a belt-shaped stretch-suppressing line part 1B both of which consist of a material less stretchable than the stretchable material around those line parts or almost non-stretchable in the longitudinal direction, are placed in parallel. Thus, the stretch-suppressing line parts 1A and 1B are formed in such directions that they bring effects similar to taping effects preventing bruise, contusion, torn muscle, distortion, bone fracture, etc., which are brought by winding tapes on a human body to control motions of muscles, joints, etc.

LEGAL STATUS

[Date of request for examination] 28.02.2003

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
